📍 RTO #91141

LOADSHIFTING TRAINING

We are an RTO, at the foothills of the Blue Mountains delivering plant operator competency based training. We are flexible & can tailor our programs to suit your specific needs, whilst adhering to national/state regulatory requirements & promoting industry *best practice* standards.

Our training provides you with the knowledge and practical skills to carry out your work safely. On successful completion of a combination of formal training, VR simulation & supervised work on a log book, you will receive a Nationally Accredited Statement of Attainment (SOA) to meet harmonised legislative requirements for information, instruction, training and supervision.

- ✓ Excavator (LE)
- ✓ Front End Loader (LL)
- ✓ Backhoe (LB)
- ✓ Skid Steer (LS)

OPERATE SUPPORT EQUIPMENT (RIIMPO208D)

1 day start up training

Work on logbook in workplace under the supervision of a competent person

1 day training review/assessment

LOADSHIFTING LICENSING HAS NOW LAPSED IN NSW

By law, workers must now complete relevant information, instruction & training to ensure operator competency & evidence of currency.

They must also be able to communicate appropriately to work safely around others.

Ongoing refresher training or VOC assessments may also be required.

Training Venues: 19 & 23 Pullman Place, Emu Plains NSW 2750
