HEIGHTS SAFETY TRAINING

*Complying with AS/NZ Standard—“Industrial Fall Arrest Systems & Devices”
(Part 4: Selection, Use & Maintenance) AS/NZS 1891.4*

The latest changes apply to users of fall arrest equipment and all personnel undertaking tasks associated with harness-based work at heights.

The following 5 levels/target groups must be trained/assessed in competency based training programs specific to their work.

LEVEL	TARGET GROUP	NATIONALLY ACCREDITED PROGRAM
①	Height safety theory	Work Safely at Heights (RIIWH204E)
②	Height safety operator	
③	Height safety supervisor	Participate in a Rescue Operation (PUASAR022) <i>(Pre-requisite: Provide First Aid — HLTAID003)</i>
④	Height safety equipment inspector	Awareness Programs Available
⑤	Height safety manager	

All programs can be tailored to meet the specific requirements of the work task/structure whilst adhering to all national/state legislation and industry standards. Our training is designed to provide the maximum amount of practical application.

On successful completion, participants will be issued with a nationally accredited SOA/card.

Public courses held at HSAS Emu Plains, or customised programs can be delivered on your site.
