EMERGENCY RESPONSE

Under harmonised legislation, PCBUs must develop emergency plans based on a practical assessment of the specific hazards & the degree of risk associated with the workplace/work activities.

CONSULTANCY SERVICES

- Review your emergency management plan (EMP), systems & equipment in line with key legislative & regulatory audit requirements then provide feedback identifying gaps & continuous improvement opportunities.
- Contextualise relevant site-specific potential emergency scenarios for use in practice drills (eg. fire, vehicle accident, fall from heights, chemical spill, confined space, asbestos, service strike, plant roll-over, etc)
- Coordinate and document regular drills on-site to test your first response actions & conduct post-event debriefings.

SITE VISITS

Flexible to suit client needs our purpose-built RESQUE van can visit your site/project fully equipped with:

Rescue ropes & rigging, rescue mannequins, stokes litter, backboards, safety harnesses, life-lines, cervical collars, vertical rescue tripod, luffing edge rescue frame, hauling systems, first aid kit/defibrillator, burns kit, LV release & rescue kit, self-contained breathing apparatus (SCBA), chemical spill kit, communication equipment, etc.

TRAINING PROGRAMS NOW AVAILABLE

- Identify, Prevent and Report Potential Facility Emergency Situations (PUAFER001) – *targeting all workers*
- Respond to Facility Emergencies (PUAFER004) – *for workplace ERTs*
- Perform Rescue from a Live Panel (UETDRRF004)
- Confine Small Emergencies in a Facility (PUAFER008) - *fire extinguisher training*
- Conduct Fire Team Operations (RIIERR201E)
- Provide First Aid (HLTAID011)
- Participate in a Rescue Operation (PUASAR022)
⇒ Undertake Vertical Rescue (PUASAR032) – *for heights rescue*
