Certificate IV in Demolition (CPC41020)

This nationally recognised qualification is tailored for project engineers & managers, demolition supervisors, and leading hands who oversee teams working on large-scale demolition projects. This includes public and commercial buildings, industrial sites, residential structures, and complex facilities like chemical processing plants. This course equips you with the skills and knowledge to manage specialist demolition work safely and effectively.

15 units: 8 core units + 7 elective units

SAMPLE QUALIFICATION OVERVIEW

UNIT OF COMPETENCY		
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry	Elec
CPCCDE3028	Remove non-friable asbestos	Elec
CPCCDE3029	Remove friable asbestos	Elec
CPCCDE4009	Supervise asbestos removal	Elec
